

WASHINGTON, DC - 202-548-2680
JACKSONVILLE, FL - 904-261-2444

HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Strategy, Inc. of Jacksonville, Florida from March 11 through March 15, 2025. A total of 625 registered voters statewide were interviewed live by telephone in Florida.

Those interviewed were randomly selected from a phone-matched Florida voter registration list that included both land-line and cell phone numbers. Quotas were assigned based on voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters in Florida voters were surveyed. The margin for error is higher for any subgroup, such as a gender or age grouping.

QUESTION: Florida's current abortion law prohibits abortions once the fetal heartbeat is detected or after six weeks of pregnancy. Exceptions to this are cases of rape, incest and human trafficking up to 15 weeks of pregnancy. Furthermore, abortions are permitted at any time in the pregnancy if two physicians certify in writing that an abortion is necessary to save the pregnant woman's life or avert a serious and permanent health problem.

**Do you agree or disagree that these state rules are reasonable restrictions for abortion?
(Is that strongly agree/disagree or somewhat agree/disagree?)**
